Welcome to MicroCare®

Discover Perfectly Clean

When it comes to the precision cleaning of electronics, MicroCare is the industry leader. If your boards need to work the first time, every time, all the time, then you need MicroCare. MicroCare quality, innovation, stewardship and service has earned the trust of companies around the globe.

MicroCare products will...

- Reduce manufacturing costs
- Improve production efficiencies
- Maximize throughput
- Minimize defects and waste
- Enhance product stewardship and safety
- Improve quality and reliability

Universal Contact Cleaner

- Plastic-safe contact cleaner
- Restores electrical continuity by rinsing away dust, lint, grit, light oils
- Fast-drying, with no residues
- Superior environmental traits makes this a great choice
- Available globally

Page 11

Universal Flux Remover

- Very good cleaner for rosin fluxes and pastes, light oils, grease, fingerprints
- Plastic-safe
- Nonflammable for maximum safety
- Universally-accepted environmental performance
- Available globally

Page 7

Polar Flux Remover

- Highly active cleaner removes even the heaviest, aged, burned-on flux residues
- Excellent on both polar and ionic activators
- Removes and minimizes white residues

Page 8

General Purpose Dust Remover 360˚

- New package for 2016
- Blows dust and grit from keyboards, optics, machinery and circuitry
- High pressure
- Can be sprayed at any angle or position, simplifying cleaning

Page 15

Streak-Free Glass Cleaner

- New surface cleaner with light foaming spray
- Cleans glass, and other surfaces quickly without streaking
- Ideal for cleaning test equipment, gauges, cabinets, workbenches
- Highly economical

TriggerGrip™ Cleaning System

- Improves benchtop cleaning results
- Reduces cleaning fluid consumption by 66%
- Fast, consistent cleaning
- Enhances worker safety
- Fits most MicroCare aerosols

TriggerGrip™ Replacement Brushes

- A key part of the TriggerGrip™ cleaning system
- Brushes slip into place; no threads or clamps
- Reduces cleaning fluid consumption
- Speeds cleaning
- Lasts 3-4 months in normal rework environment

Circuit Board Cleaning Station

Using the TriggerGrip™

Using the TriggerGrip™ system is easy. It's just *Wet, Scrub, Rinse* and *Dry*.

Pop the tamper-proof seal off the top of each can. Then, connect the TriggerGrip™ cleaning tool to the aerosol. Insert the aerosol can into the Bench Mounting Kit.

Hold the PCB board at a slight angle, so fluid will run off it. Spray a small amount of the cleaning fluid. Gently scrub. If the fluid evaporates away while cleaning, give it another little squirt.

Once the residues are loosened, lift the brush off the board and spray a small amount of fresh, pure cleaner. Let it run off the board and on to the wipe. This rinses the board. Then let the board air-dry, or use a lint-free wipe to tidy things up.

- Convenient starter kit; contains one TriggerGrip™ dispensing tool, wipes and everything else needed for great cleaning on the benchtop
- Cleans in seconds
- Reduces cleaning fluid consumption
- Aerosol empties completely; no wasted liquid trapped in can

Bench Mounting Kit

- A key element in the TriggerGrip™ cleaning system
- Holds the aerosol can and the TriggerGrip™ cleaning tool
- Keeps aerosol can from tipping and falling
- Ensures the aerosol can empties completely; eliminates waste

PCB Cleaner Selection Guide

We Make Cleaning Easy!

This simple chart compares our best selling electronics cleaners on two important characteristics: safety and cleaning strength. Use the chart below to get started in your search. Find more details on the following pages of this catalog or at MicroCare.com.

Regulatory Compliance

MicroCare takes safety very seriously. The company provides safety information on every container and on the Safety Data Sheets (SDS) for every MicroCare product. Regulatory limitations preclude some MicroCare products from being sold in some localities. All MicroCare products sold by MicroCare in the EU are REACH-compliant. At the time of sale, no MicroCare products contain any ingredients listed in REACH SVHC lists. All MicroCare ingredients are TSCA-listed, SNAP-approved, and ROHS- and WEEE-compliant.

Packaging Notes

The most popular MicroCare cleaners are available in four packages: aerosols, one gallon (3.8 liter) mini-pails or mini-cubitainers; five gallon (19 liter) pails or cubitainers; and 55-gallon (200 liter) drums. Some products also are available in refillable presaturated wipes and/or in pump-spray bottles as well. For various technical reasons, not all products are available in every package. Check wih your MicroCare manager for details. Find more specifics on the following pages of this catalog, on-line or in the detailed Product Specification.

Lead-Free Flux Remover - PowerClean™

- Strong cleaning of high-temperature lead-free solder flux residues
- Cleans oils, inks and some conformal coatings
- Eliminates white residues
- No residues/no rinsing
- Nonflammable and fast-drying
- Removes acrylic conformal coatings
- TriggerGrip™ cleaning system compatible

Presaturated Wipes

- Each presat package contains 100 wipes saturated with cleaning fluid
- Each features a strong, lint-free wipe of 100% polyester fabric
- Thicker, heavier wipe holds more contamination than others
- Unlimited shelf life — unique "slam-shut" canister traps the fluid inside and wipes will not dry out
- Available with money-saving refills

MultiTask Surface Cleaner - MultiClean™

- Best-selling, economical MicroCare presaturated wipe
- Removes solder paste, fluxes, finger prints, uncured epoxy residues, light oils and grease

Alcohol-Enhanced Presat Wipe - ProClean™

- Stronger, faster stencil cleaner
- Very pure blend, water-free alcohols
- Excellent on lead-free pastes

IPA-Based Presat Wipe - IsoClean™

- Very pure, water-free IPA alcohol
- The industry standard for stencil cleaning and benchtop housekeeping

Stencil, Squeegee & Misprint Cleaner - ScreenClean™

- Engineered for removing inks
- Excellent replacement for methylene chloride, acetone and other ink removing solvents

Uncured Epoxy Cleaner - ExPoxy™ Remover

- The strongest stencil cleaner and degreaser
- Removes uncured epoxy, cured chip bonder, grease, solder paste, light oils and some inks

Money-Saving Refills

All MicroCare presaturated wipes are made with the same heavy duty, lint-free fabric that resists tearing and shredding. Money-saving refills are available only from MicroCare. These contain the same wipes and fluid as the tubs, but reduce costs and help protect the environment by encouraging the re-use of the rugged plastic packaging. See list on left.

Dry Lint-Free Wipes

- No binders ensuring maximum purity
- Enormous variety of woven, knitted and non-woven choices
- Available in a variety of sizes, packaging and weights for every application
- All are high strength, non-linting fabric for maximum performanc
- High-purity packaging available for cleanroom environments
- Optical grades also available
